**MODEL
7309**

Previous experience with radio controlled models is recommended. Model requires a higher level of setup, maintenance, or support equipment.

WHAT'S IN THE BOX:

The Ken Block Gymkhana Fiesta is a complete package loaded with all the accessories you need right out of the box. All that's left to buy are AA Alkaline batteries for your transmitter. **Inside the box you'll find:** Ken Block Gymkhana Fiesta, Ready-To-Race® with Velinson 380 motor, VXL-3m electronic speed control, full-color owner's manual, TQ™ 2.4GHz radio system with Traxxas Link™, 31-tooth pinion gear, quality tool set, 7.2 volt NiMH battery, and charger.

Included Radio System!

- High-output 2.4GHz technology eliminates channel conflicts for ultimate convenience
- Direct sequence spread spectrum technology (DSSS)
- Traxxas Link™ automatically memorizes and recognizes up to 20 of your favorite models
- Programmable Multi-Function knob controls
 - Steering/throttle expo
 - Steering/braking dual rate
 - Throttle trim
- Simple 2-button programming interface
- Servo reversing
- Endpoint adjustment
- Built in failsafe
- 5-channel Traxxas Link receiver

WHAT YOU'LL NEED TO RUN YOUR FIESTA:

4 AA Alkaline Batteries

IMPORTANT! THIS PRODUCT IS NOT DESIGNED FOR CHILDREN OR MINORS YOUNGER THAN 14 YEARS OLD. RESPONSIBLE ADULT SUPERVISION IS REQUIRED DURING OPERATION AND MAINTENANCE. The Ken Block Gymkhana Fiesta is a high-performance model which is NOT intended for use on public roads or in congested areas where its operation may conflict with or disrupt pedestrian or vehicular traffic. Read all enclosed information before operating. Fully illustrated, step-by-step

1-888-TRAXXAS

instructions describe adjustment, operation, and required maintenance procedures. Ken Block Gymkhana Fiesta should not be operated in a crowd or without adequate space. The vehicle is fully assembled, ready to run, and requires 4 AA alkaline batteries for operation. These items are available from your hobby dealer. In an effort to continually upgrade our products, Traxxas reserves the right to make improvements and modifications to this model, which may not be reflected in the photographs and specifications printed on this box.

This product is protected by one or more of the following: US patent Nos. 7,374,460; 7,530,855; 7,793,951; 7,753,161; D573,536; D576,557; D567,886

TRAXXAS
THE FASTEST NAME IN RADIO CONTROL®

KEN BLOCK

GYMKHANA FIESTA

1/16 Scale Officially Licensed Race Replica

In 2005, DC Shoes co-founder Ken Block entered his first pro rally race. At the end of the season, he was named Rally America Rookie of the Year. Today, Ken Block is one of the most recognized names in motorsports. Beyond his success in the Rally America and World Rally Championship series, Block is best known for his gymkhana skills, as over 85 million online video views will attest. In his specially-prepared Ford Fiesta Gymkhana car, Block combines laser-precise driving with tire-smoking fury to perform seemingly impossible moves. His on-road acrobatics require a vehicle that can deliver intense power through all four wheels, with the responsiveness and "feel" that only a finely tuned machine can provide. You can experience the challenge and satisfaction of executing that perfect slide between the pylons with the Traxxas radio controlled Ken Block Gymkhana Fiesta. This officially licensed special-edition race replica features the unmistakable Ken Block/Monster Energy graphics of Ken Block's full-size Ford Fiesta competition car. Beneath the bodywork, Traxxas' race-proven technology, full-time 4WD, and tire-spinning brushless horsepower thread the needle through the course with scalpel-like precision. The fun lasts for hours as you perfect the throttle and steering inputs to make each tire-blistering slide more perfect than the last.

Officially Licensed Volk Racing TE37 Wheels

Ken Block's distinctive Volk Racing TE37 wheels are perfectly duplicated, right down to their green finish and single white spoke. Slick tires in a specially formulated compound deliver the perfect blend of slip and grip for authentic Gymkhana performance.

F1-Inspired Inboard Shocks

Innovative linkage-based suspension geometry increases spring and damping rates in proportion to cornering forces for perfectly balanced handling. Only Traxxas has it.

Waterproof Electronics

Rally racers don't slow down for rain—and neither does the Ken Block Gymkhana Fiesta. Exclusive waterproof electronics open the door to all-weather R/C excitement, even in wet conditions.

50+mph with Two NiMH Battery Packs!

Add a second Traxxas Power Cell NiMH battery pack and Traxxas Speed connector (both sold separately), and 50+ mph top speeds are possible. (Part #3063, #2925)

TQ 2.4GHz High-Output Radio System with Traxxas Link

The next generation of Traxxas TQ™ 2.4GHz computerized radio performance is here with Traxxas Link™. This innovative new transmitter gives you easy access to a powerful range of tuning features such as throttle and steering exponential, steering dual rate, end point adjustments, braking percentage, and more. A single Multi-Function knob on the face of the transmitter controls them all. Have more than one vehicle? Patent-pending Traxxas Link™ stores up to 20 models in the memory and automatically recognizes and recalls the saved model settings when you power up the system. Traxxas Link eliminates searching through complex menus to find the model you want to run. You can even bind multiple transmitters to the same Traxxas Link equipped vehicle and never have to worry about which transmitter works with which vehicle. Long range 2.4GHz transmission eliminates channel conflicts so all of your vehicles, and your friends' vehicles, can race together without ever having to worry about frequency conflicts.

Features:

- Traxxas Link™
- Steering/throttle expo
- Steering/braking dual rate
- Servo reversing
- Endpoint adjustment
- Built in failsafe
- Compact folding antenna
- Direct sequence spread spectrum technology (DSSS)
- Uses only 4 AA batteries
- Simple 2-button programming interface
- 5-channel Traxxas Link receiver

GYMKHANA FIESTA

Velineon
EXTREME BRUSHLESS POWER SYSTEM

30+ MPH Out of the Box With Included Battery
50+ MPH With Included Pinion Gear, Second NiMH Battery, and Speed Connector [See Website](#)

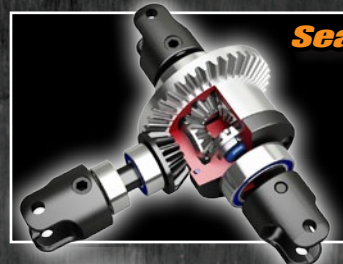

Extreme performance. Laser precision. At the heart of the Traxxas Ken Block Gymkhana Fiesta is the Velineon® Extreme Brushless Power System. Traxxas Velineon is the only name you need to know to achieve the tire – melting horsepower and supercharged speed you expect from Brushless. Best of all, it's brushless done the Traxxas way: wicked fast and easy to use. Just plug it in and it works. The key is total system optimization. All of the components in the system are engineered to eliminate restriction and allow maximum power flow. High frequency transistors and advanced circuit design deliver incredibly smooth and refined throttle control. The Velineon VXL-3m electronic speed control simplifies brushless technology with easy operation that gives you all the control you need for maximum fun. Quickly choose from 3 drive profiles including Sport, Race, and Training Mode™ (patent pending). Training Mode limits full-throttle power to 50%. When basic driving technique is mastered, full-power excitement is unleashed at the touch of a button.

- Optimized for smooth sensorless power
- No motor brushes or commutator to wear out
- Virtually maintenance-free power that stays consistent, run after run
- Precision balanced rotor
- Ultra high-temperature sintered Neodymium motor magnets
- Two-stage thermal shutdown protection
- Patent-pending Traxxas High-Current Connector
- 16-Gauge wire
- EZ-Set® push button setup with integrated on/off switch
- Run 3S Lipo or 12-cell NiMH (series connection) for extreme power
- Low voltage detection
- VXL-3m is backed by the Traxxas Lifetime Electronics Warranty
- Count on Traxxas for unmatched customer service and support with the Velineon Extreme Brushless Power System

Ball-Bearing Transmission with Slipper Clutch

High-efficiency, heavy-duty transmission is built for brushless power. An adjustable slipper clutch lets you tailor power delivery to suit the terrain and your driving style. Precision ball-bearings make certain every watt of Velineon power is turned into pure speed.

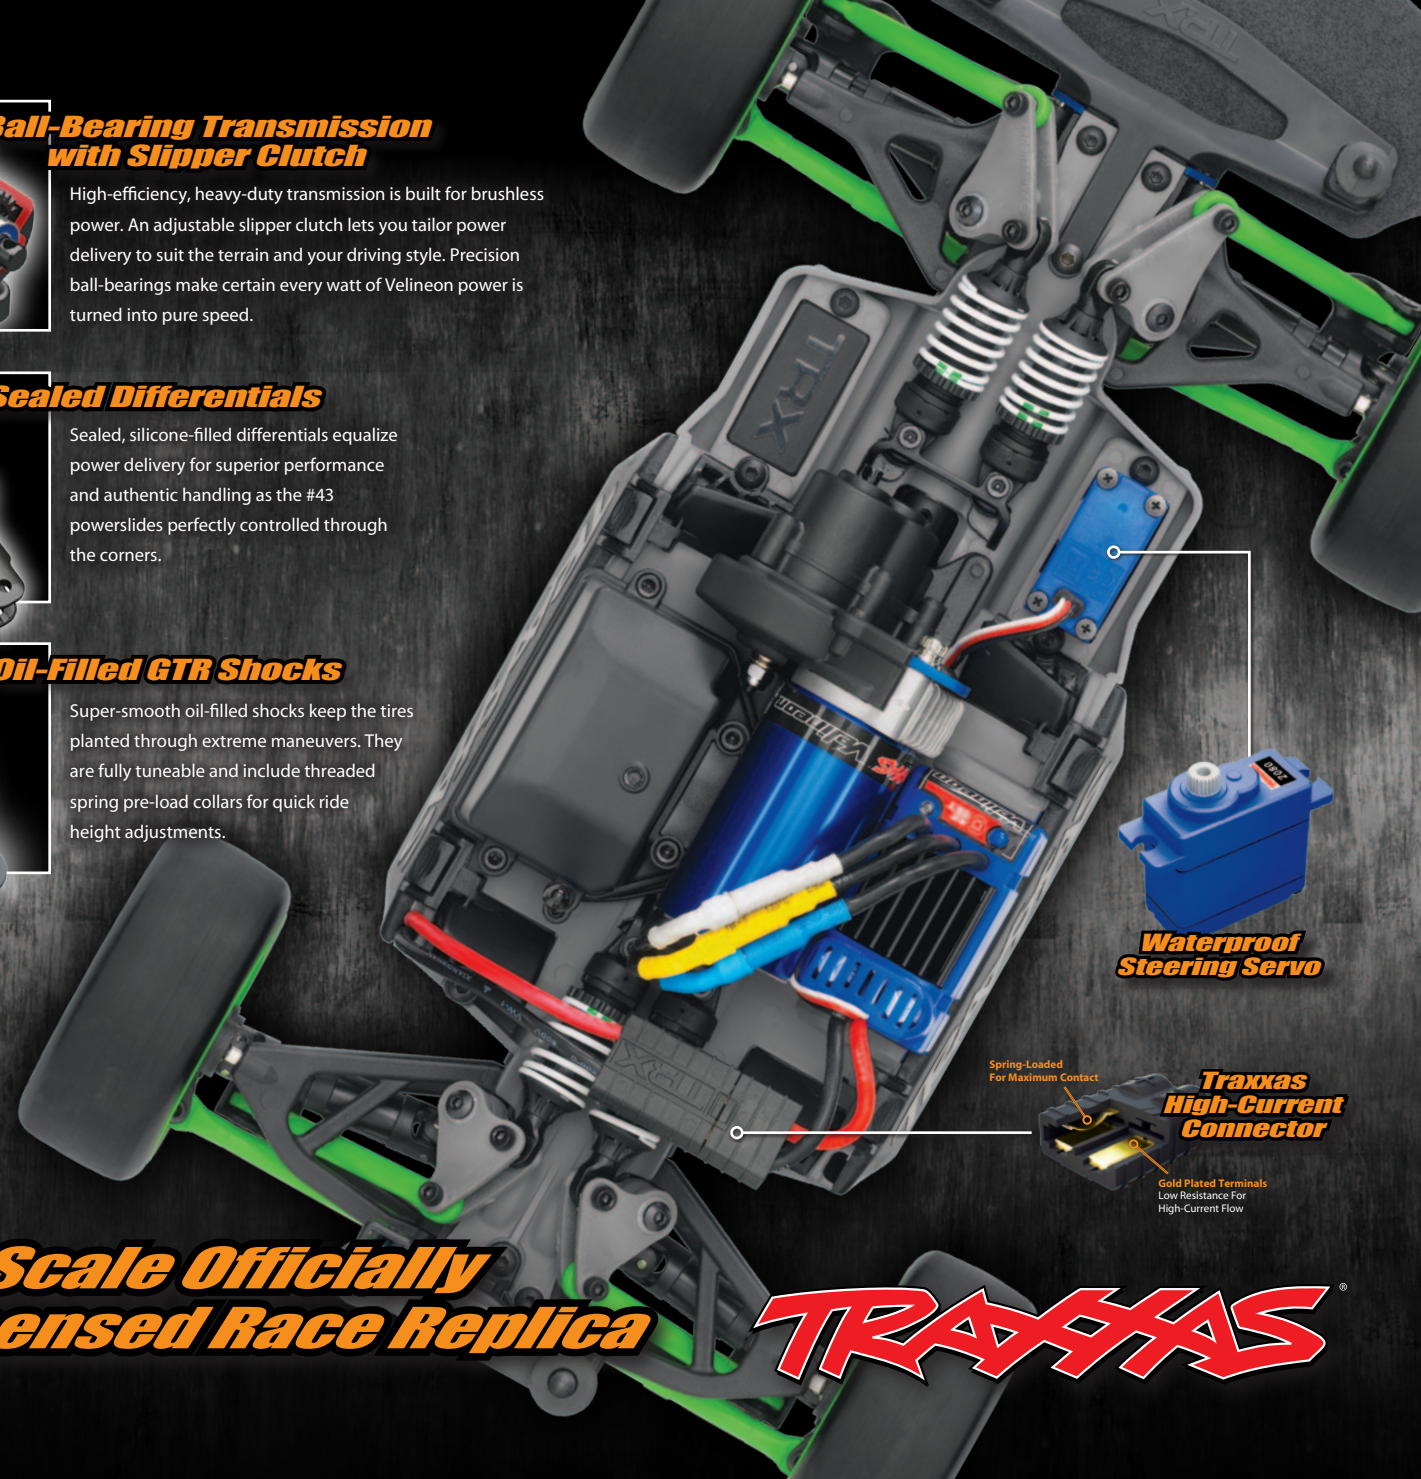

Sealed Differentials

Sealed, silicone-filled differentials equalize power delivery for superior performance and authentic handling as the #43 powerslides perfectly controlled through the corners.

Oil-Filled GTR Shocks

Super-smooth oil-filled shocks keep the tires planted through extreme maneuvers. They are fully tuneable and include threaded spring pre-load collars for quick ride height adjustments.

Waterproof Steering Servo

Traxxas High-Current Connector
