Included Radio System!

- High-output 2.4GHz technology eliminates channel conflicts for ultimate convenience
- Direct sequence spread spectrum technology (DSSS)
- Traxxas Link™ automatically memorizes and recognizes up to 20 of your favorite models
- Programmable Multi-Function knob controls
 - Steering/throttle expo
 - Steering/braking dual rate
 - Throttle trim
- Simple 2-button programming interface
- Servo reversing
- Endpoint adjustment
- Built in failsafe
- 5-channel Traxxas Link receiver

MODEL
7107

Previous experience with radio controlled models is recommended. Model requires a higher level of setup, maintenance, or support equipment.

WHAT'S IN THE BOX:

1/16 E-Revo VXL is a complete package loaded with all the accessories you need right out of the box. All that's left to buy are AA Alkaline batteries for your transmitter. **Inside the box you'll find:** 1/16 E-Revo VXL, Ready-To-Race® with Velineon 380 motor; VXL-3m electronic speed control, full color owner's manual, TQ™ 2.4GHz radio system with Traxxas Link™, 7.2 volt NiMH battery, and charger.

WHAT YOU'LL NEED TO RUN YOUR E-REVO:

4 AA Alkaline Batteries

IMPORTANT! THIS PRODUCT IS NOT DESIGNED FOR CHILDREN OR MINORS YOUNGER THAN 14 YEARS OLD. RESPONSIBLE ADULT SUPERVISION IS REQUIRED DURING OPERATION AND MAINTENANCE. The 1/16 E-Revo VXL is a high-performance model which is NOT intended for use on public roads or in congested areas where its operation may conflict with or disrupt pedestrian or vehicular traffic. Read all enclosed information before operating. Fully illustrated, step-by-step instructions describe adjustment, operation, and required maintenance procedures. E-Revo VXL should not be

operated in a crowd or without adequate space. The vehicle is fully assembled, ready to run, and requires 4 AA alkaline batteries for operation. These items are available from your hobby dealer. In an effort to continually upgrade our products, Traxxas reserves the right to make improvements and modifications to this model, which may not be reflected in the photographs and specifications printed on this box.

This product is protected by one or more of the following: US patent Nos. 7,374,460; 7530855; D573,536; D576557; D567,886

TRAXXAS

THE FASTEST NAME IN RADIO CONTROL®

1/16 E-REVO VXL

30+ MPH	Out of the Box With Included Battery
50+ MPH	With Optional Pinion Gear and Second NiMH Battery Pack (sold separately)

SACRIFICE NOTHING!

Built on the winning design of the 7-time National Champion Revo, the 1/16 E-Revo VXL brings big fun into small places without sacrificing the quality and precision you expect. With performance that far exceeds any ordinary "mini" truck, E-Revo VXL's race-derived suspension puts full-scale sophistication in the palm of your hand. State-of-the-art brushless horsepower, precision fit and finish, full hex hardware, sealed silicone-filled differentials... no detail was spared to bring you the exciting driving experience and quality feel you expect from Traxxas, The **Fastest** Name In Radio Control.®

50+MPH
ON TWO NiMH
BATTERY PACKS

E-Revo VXL already blows the rest away with its 30+mph out of the box speed with the included NiMH battery pack. Add a second Traxxas Power Cell NiMH battery pack and Traxxas series connector (both sold separately), install the high speed pinion gear (included) and 50+ mph top speeds are possible. All of this incredible performance comes with safe, inexpensive NiMH power!

Waterproof

**WATERPROOF
ELECTRONICS**

E-Revo VXL's waterproof electronics open the door to all-weather R/C excitement in water, mud and snow. It's a whole new way to experience R/C fun and only Traxxas has it!

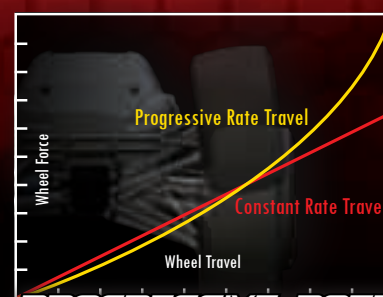

**SEALED
DIFFERENTIALS**

E-Revo VXL's sealed, silicone-filled differentials resist "unloading" for superior off-road performance with full tuneability. It's another Traxxas first in this size category.

**HIGH-QUALITY
HEX HARDWARE**

Corrosion-resistant black-oxide hex screws make E-Revo VXL as easy to tune and maintain as the 1/10-scale E-Revo.

**PROGRESSIVE-RATE
SUSPENSION**

Innovative linkage based suspension geometry multiplies suspension travel and increases spring and damping rates as the shocks are compressed for instant small-bump compliance without compromising shock-absorbing performance for big hits.

TQ 2.4GHz High-Output Radio System with Traxxas Link™

The next generation of Traxxas TQ™ 2.4GHz computerized radio performance is here with Traxxas Link.™ This innovative new transmitter gives you easy access to a powerful range of tuning features such as throttle and steering exponential, steering dual rate, end point adjustments, braking percentage, and more. A single Multi-Function knob on the face of the transmitter controls them all. Have more than one vehicle? Patent-pending Traxxas Link™ stores up to 20 models in the memory and automatically recognizes and recalls the saved model settings when you power up the system. Traxxas Link eliminates searching through complex menus to find the model you want to run. You can even bind multiple transmitters to the same Traxxas Link equipped vehicle and never have to worry about which transmitter works with which vehicle. Long range 2.4GHz transmission eliminates channel conflicts so all of your vehicles, and your friends' vehicles, can race together without ever having to worry about frequency conflicts.

FEATURES:

- Traxxas Link™
- Steering/throttle expo
- Steering/braking dual rate
- Servo reversing
- Endpoint adjustment
- Built in failsafe
- Compact folding antenna
- Direct sequence spread spectrum technology (DSSS)
- Uses only 4 AA batteries
- Simple 2-button programming interface
- 5-channel Traxxas Link receiver

1/16 E REVO VXL

BRUSHLESS

Velineon

EXTREME BRUSHLESS POWER SYSTEM

Extreme performance. Laser precision. At the heart of the E-Revo VXL is the Velineon® Extreme Brushless Power System. Traxxas Velineon is the only name you need to know to achieve the tire—melting horsepower and supercharged speed you expect from Brushless. Best of all, it's brushless done the Traxxas way: wicked fast and easy to use. Just plug it in and it works. The key is total system optimization. All of the components in the system are engineered to eliminate restriction and allow maximum power flow. High frequency transistors and advanced circuit design deliver incredibly smooth and refined throttle control. The Velineon VXL-3m electronic speed control simplifies brushless technology with easy operation that gives you all the control you need for maximum fun. Quickly choose from 3 drive profiles including Sport, Race, and Training Mode™ (patent pending). Training Mode limits full-throttle power to 50%. When basic driving technique is mastered, full-power excitement is unleashed at the touch of a button.

VXL-3m ESC

VELINEON 380 MOTOR

- Optimized for smooth sensorless power
- No motor brushes or commutator to wear out
- Virtually maintenance-free power that stays consistent, run after run
- Precision balanced rotor
- Ultra high-temperature sintered Neodymium motor magnets
- Two-stage thermal shutdown protection
- Patent-pending Traxxas High-Current Connector
- 16-Gauge wire
- EZ-Set® push button setup with integrated on/off switch
- Run 3S Lipo or 12-cell NiMH (series connection) for extreme power
- Low voltage detection
- VXL-3m is backed by the Traxxas Lifetime Electronics Warranty
- Count on Traxxas for unmatched customer service and support with the Velineon Extreme Brushless Power System

30+ MPH	Out of the Box With Included Battery
50+ MPH	With Optional Pinion Gear and Second NiMH Battery Pack (sold separately)

BALL-BEARING TRANSMISSION WITH SLIPPER CLUTCH

E-Revo VXL's high-efficiency, heavy-duty transmission is built for brushless power. An adjustable slipper clutch lets you tailor power delivery to suit the terrain and your driving style, and precision ball-bearings make certain every watt of Velineon power is turned into pure speed.

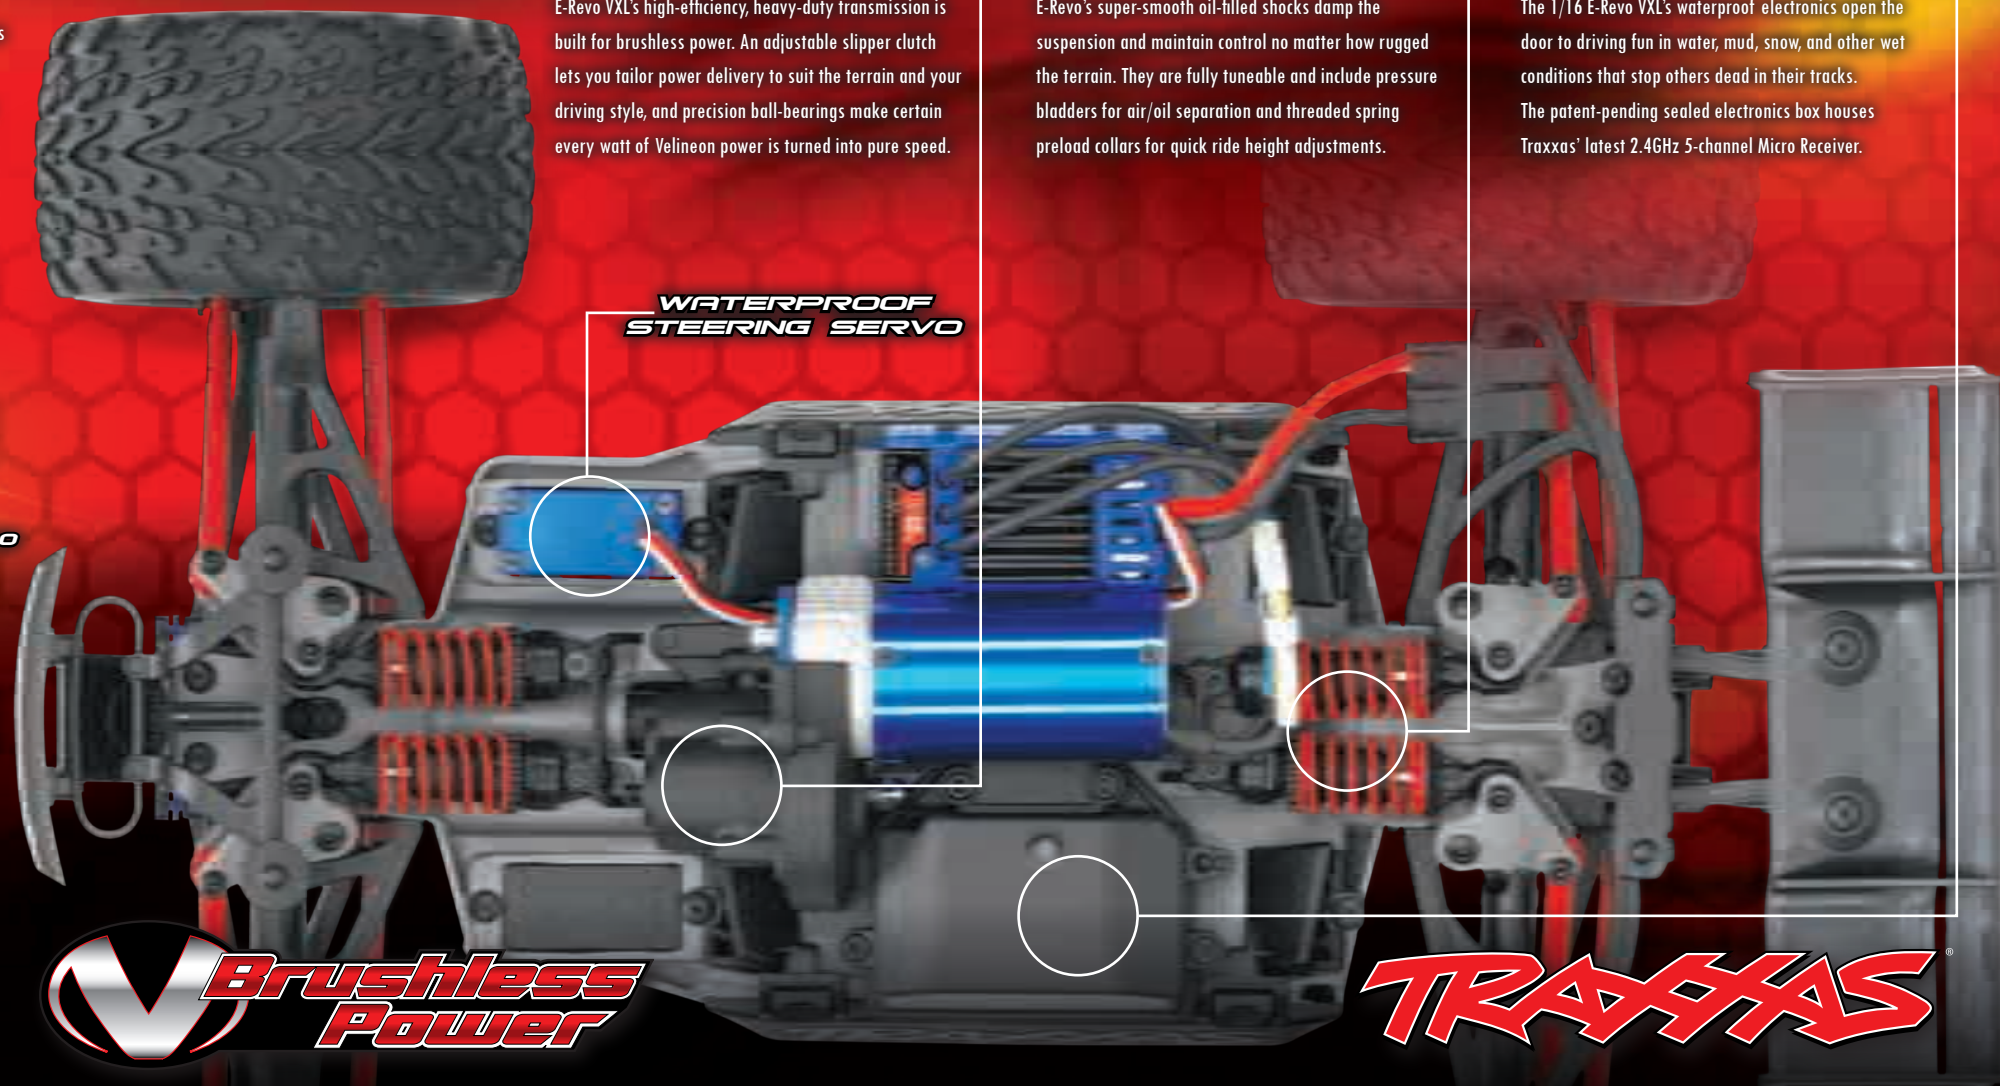

OIL-FILLED GTR SHOCKS

E-Revo's super-smooth oil-filled shocks damp the suspension and maintain control no matter how rugged the terrain. They are fully tuneable and include pressure bladders for air/oil separation and threaded spring preload collars for quick ride height adjustments.

WATERPROOF ELECTRONICS

The 1/16 E-Revo VXL's waterproof electronics open the door to driving fun in water, mud, snow, and other wet conditions that stop others dead in their tracks. The patent-pending sealed electronics box houses Traxxas' latest 2.4GHz 5-channel Micro Receiver.
