## WHAT'S IN THE BOX:

This model is a complete package loaded with all the accessories you need right out of the box. All that's left to buy are AA Alkaline batteries for your transmitter. **Inside the box you'll find:** Grave Digger® Ready-To-Race® with Titan® 12T 550 motor, XL-5 electronic speed control, 7-cell Traxxas Power Cell battery, charger, full color Owner's Manual, accessory pinion gear, quality tool set, and TQ™ radio system.

## Included Radio System!

- Two-channels
- Excellent balance
- Low-battery indicator
- High-power output
- Retractable antenna
- Electronic trim controls
- Special comfort grip
- Servo reversing

**MODEL 3602A**

No previous experience with radio controlled models is required. Model requires a minimum of setup, maintenance, or support equipment.

## INCLUDED BATTERY PACK:

7-Cell (8.4V) 3000mAh Traxxas Power Cell Pack with High-Current Connector

## WHAT YOU'LL NEED TO RUN YOUR STAMPEDE:

Sold separately at your hobby dealer.

8 AA Alkaline Batteries

**IMPORTANT! THIS PRODUCT IS NOT DESIGNED FOR CHILDREN OR MINORS YOUNGER THAN 14 YEARS OLD. RESPONSIBLE ADULT SUPERVISION IS REQUIRED DURING OPERATION AND MAINTENANCE.**

This model is a high-performance model which is NOT intended for use on public roads or in congested areas where its operation may conflict with or disrupt pedestrian or vehicular traffic. Read all enclosed information before operating. Fully illustrated, step-by-step instructions describe adjustment, operation, and required maintenance procedures. This model should not be operated in a crowd, indoors or without adequate space.

The vehicle is fully assembled, ready to run, and requires the following items for operation: 8 AA alkaline batteries. These are available from your hobby dealer. In an effort to continually upgrade our products, Traxxas reserves the right to make improvements and modifications to this model, which may not be reflected in the photographs and specifications printed on this box. Battery and charger style subject to change and may vary from photos.

This product is protected by one or more of the following US patents: 7,534,170; 7,374,460; 7,530,855; D573,536; D576,557

**TRAXXAS®**  
THE FASTEST NAME IN RADIO CONTROL®

# GRAVE DIGGER®

Take home all the excitement and thunder of Monster Jam® with **TRAXXAS**, the **Fastest Name in Radio Control!** Traxxas has captured all the detail of the full-size Grave Digger®, and duplicated its legendary, earth-shaking performance with a powerful Titan 550 motor and top speeds over 30mph! Grave Digger is fully assembled and Ready-To-Drive®, and includes the radio system, 7-cell 8.4V battery, and charger. This super-rugged monster truck is engineered for fun that lasts for years with fully waterproof electronics, smooth oil-filled shocks, metal gear transmission, and extra-tough construction. Replacement parts and custom accessories are available from your local hobby store or directly from Traxxas.

## Authentic Monster Truck Replica Tires

It's the signature feature of a Monster Jam® machine! Traxxas authentically replicates the aggressive treads and mounts them on realistic deep-dish wheels with beadlock styling, just like the full-size Grave Digger's.

Ultra Shocks™

Waterproof  
High-Torque  
Steering Servo

Take the wheel and experience the thundering power of Grave Digger® right in your own back yard! Whether you're crushing your buddies' cars, catching big air, or laying down monster wheelies, this monster truck just doesn't know when to quit. Its tall, drive-over anything ground clearance and ultra-tough suspension make the radio-controlled Grave Digger feel nearly indestructible. Being big is good, but being big AND fast is even better! When it comes to speed, Grave Digger's Titan 12-turn modified motor and racing-style transmission deliver a 1-2 knockout punch to the competition. No other truck can match Traxxas' legendary all-terrain capability and rugged durability, and only Traxxas offers officially-licensed designs straight from the arenas of Monster Jam. The Grave Digger is perfect for almost any age driver or skill level. The XL-5 electronic speed control can be programmed to run at 50% maximum throttle (Training Mode™), giving new drivers a chance to try out their skills before unleashing full-throttle monster power.

## Waterproof Electronics!

### XL-5 Electronic Speed Control

- High current handling
- Forward/reverse/brake
- Smooth high-frequency control
- EZ-Set® push-button setup
- Thermal shutdown protection
- Backed by the Traxxas Lifetime Electronics Warranty
- Integrated on-off button
- Three easy-to-program drive profiles
- High efficiency MOSFET transistors
- Low-voltage detection

Exclusive patent-pending Training Mode™ limits full throttle to just 50% for young or first-time drivers. As driving skills improve, a simple profile change unleashes full-power excitement.

Waterproof  
Receiver Box

Fully Assembled  
**Ready-To-Race®**

**TRAXXAS**

**4" Monster Ground Clearance**

Grave Digger's massive 4" of center ground clearance lets it tackle terrain that other monsters fear to tread! Climb curbs, rip over rocks, and shred through grass—Grave Digger does it all!

**Waterproof Receiver Box**

A ground-breaking new waterproof receiver box is another Traxxas innovation that puts Grave Digger in a league of its own. To protect the receiver from dust and water a custom shaped blue O-ring seals the receiver box. The antenna and servo wires route neatly through a special watertight seal. Thanks to the unique design, the receiver can be removed for service and aftermarket receivers can be used without losing the sealing properties of the box.

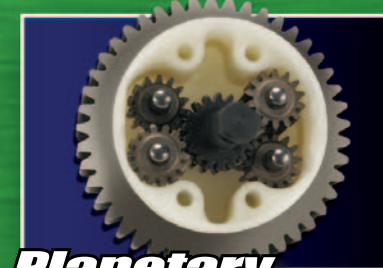

**Titan® 12T Motor**

The Titan 12T is a modified high-performance fan-cooled 550 motor that features a 30% longer armature than a standard 540 size motor. The 12-turn wind delivers massive, wheelie-popping torque and blistering top speeds. The integrated fan pulls air through the motor for increased cooling and motor life.

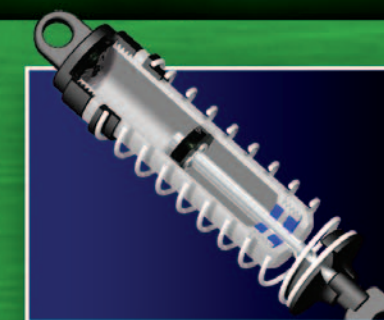

**Steel Magnum 272**

The Magnum 272 transmission features an innovative Torque-Control™ slipper clutch, metal gears, and precision ball bearings for race-proven durability and speed. The Revo-Spec Torque-Control slipper clutch uses semi-metallic pads and heat-dissipating, finned aluminum-alloy pressure plates for smooth linear engagement and consistent traction control.

**Planetary Differential**

The Traxxas planetary gear differential uses hardened steel internal gears for maximum strength during rigorous off-road maneuvers. This type of differential requires virtually no maintenance and its efficient design puts maximum tire-shredding power to the wheels.

**Ultra Shocks™**

Super-smooth oil-filled shocks damp the suspension and maintain control during monster off-road pounding sessions. They are fully tuneable with a wide range of oils, springs, and pistons. Features include pressure bladders for air/oil separation and spring clips to change the ride height and spring pre-load. They can be renewed in minutes with our inexpensive rebuild kits.
